## **LIST OF INSTITUTIONS WHO HAVE AUTHORIZED THE USE OF OCREB AS A RESEARCH ETHICS BOARD OF RECORD**

The Ontario Cancer Research Ethics Board (OCREB) is an oncology-specific provincial resource providing ethics review and ongoing monitoring of multi-centre research. Its objectives are to: provide high quality ethics reviews, protect the safety and rights of human research subjects, reduce the workload and duplication associated with reviews of the same research protocol by multiple research ethics boards and simplify and accelerate the initiation of multi-centre oncology clinical research in Ontario.

### **OCREB as Research Ethics Board of Record**

Ontario centres with an agreement in place can submit a research project to OCREB for review. As their Research Ethics Board of Record, OCREB is fully accountable to the institution for initial and ongoing ethics review and ongoing oversight of the research; OCREB may approve, reject, propose modifications to, put on hold or terminate the research project at its sole discretion.

### **OCREB Board of Record Centres**

The following centres have a letter of intent in place authorizing their institution to use OCREB as Board of Record (BOR) for multi-centre oncology research, and have registered OCREB under their institutional Federal Wide Assurance with the US Office for Human Research Protections. The institution decides whether to use OCREB as Board of Record on a study-by-study basis by executing a Board of Record Study Agreement, which includes the division of responsibilities between the Ontario Cancer Research Ethics Board and the participating institution.

1. Trillium Health Centre, Mississauga;
2. Thunder Bay Regional Health Sciences Centre – Cancer Centre;
3. Southlake Regional Health Centre, Newmarket;
4. Windsor Regional Hospital - Windsor Regional Cancer Centre;
5. Toronto East General Hospital;
6. University Health Network - Princess Margaret Hospital, Toronto;
7. Hamilton Health Sciences;
8. Grand River Hospital – Grand River Regional Cancer Centre, Kitchener;
9. Cambridge Memorial Hospital;
10. Mount Sinai Hospital, Toronto;
11. The Ottawa Hospital;
12. Niagara Health Services, St. Catharines;
13. London Health Sciences Centre;
14. Sunnybrook Health Sciences Centre, Toronto;
15. Credit Valley Hospital, Mississauga;
16. William Osler Health Centre, Brampton;
17. Kingston General Hospital – Cancer Centre of Southeastern Ontario;
18. St. Michael's Hospital, Toronto;
19. North York General Hospital;
20. Royal Victoria Hospital, Barrie;
21. Hôpital régional de Sudbury Regional Hospital;
22. St. Joseph's Healthcare, Hamilton;
23. Lakeridge Health, R. S. McLaughlin Durham Regional Cancer Centre, Oshawa;
24. Women's College Hospital, Toronto.
